CreateSpace Independent Publishing Platform. Paperback. Condition: New. This item is printed on demand. 42 pages. Dimensions: 9.0in. x 6.0in. x 0.1in. This book will lead the average person through a step by step process to diagnose the problems in keeping the heated or cooled air inside their home. After diagnosing the problem areas in the home, five tips, plus two bonus tips, are offered to allow the typical homeowner or renter to effect greater comfort, and lower utility bills for the home. A more comfortable living space which costs less to maintain in winter and summer is the first goal. Reaching that goal by spending less than the cost of a couple of cappuccinos is the second goal. For those who arent terribly familiar with building terms, tools, and general handyman tasks, diagrams have been included to assist in the process. The more than two decades Ive spent working as an energy efficiency professional has led me to this point. The questions Ive been asked consistently throughout the years by homeowners and renters alike, prompted a series of tips which can be done by nearly anyone, and which can be completed in a way which allows a more comfortable living space and lowered utility bills right away. With the cost of heating oil, natural gas, propane and electricity continuing to go up, there is no better time than right now to start saving money on heating and cooling your home. Lets get started, shall we This item ships from La Vergne, TN. Paperback.
