MONITORING INDUCED SEISMICITY

Springer Basel AG Jun 2010, 2010. Taschenbuch. Condition: Neu. Neuware - Stress re-distribution as a result of exploitation of mineral, hydrocarbon, geothermal, and water resources cannot be eliminated. The effort must be directed to a better understanding of the underlying processes for the management of the hazard and risk associated with these operations. The study of induced seismicity has continually evolved over the past couple of decades, as underlined by both the number and complexity of applied studies required to...
