Brand New Book ***** Print on Demand *****.Historically, the economy includes several sectors (known as industries), that evolved in successive phases. The ancient economy was mainly based on subsistence farming. The industrial revolution lessened the role of subsistence farming, converting it to more extensive and monoculture forms of agriculture in the last three centuries. The economic growth took place mostly in mining, construction and manufacturing industries. The book titled "Human and Economic Geography" is the book that covers directly the field related to the human activities that involving production, distribution, exchange, and consumption of goods and services as a whole. The book gives the general idea, skills, knowledge and understanding about all human activities, and investment as core variable components in economic development. The book explains on the sectors of economic activity namely; primary, secondary and tertiary sectors. Human and Economic geography is the branch of geography deals with all types of human activities undertaken by people in the universe for economic developments In the economies of modern consumer societies there is a growing part played by services, finance, and technology (the knowledge...
