But. . a parody revealing difficult times in the 1950s. BRIEF DESCRIPTION A Girl Doesn t Need To Go To College But. But. But. takes readers back to the 1950s when covert discrimination, economic class lines, lack of accountability in schools, and the expectation for women to play second fiddle to men was the norm. As they would say in the 1950s, Cowabunga! Enter a classroom of 6th and 7th graders left unsupervised for the better part of their 1952-53 school year. Experience how rising above becomes the mindset for two girls in this class. One, vulnerable and meek-fed up with being bullied-eventually stands up for herself. The other, living in poverty, under the thumb of an abusive stepmother . . . Well, her road to a better life is quite bumpy, but she eventually achieves her goal. But. is for children 10 and older, plus anyone interested in the 1950s. GLOSSARY FOR YOUNG READERS Simple definitions are provided in the Glossary for selected words and...
