Americans are facing an unprecedented health and healthcare crisis. Chronic diseases such as Cancer, Diabetes, Hypertension, and Cardiovascular Disease are increasing at an alarming rate, despite decades of government programs to curb them. Thyroid, Adrenal, and Autoimmune Diseases are becoming epidemic. Two-thirds of our people are overweight or obese. Symptoms such as pain, fatigue, depression, anxiety, digestive problems, and mental fog are common complaints heard in doctor s offices and churches around the nation. Our government and the medical establishment have no answers for these problems-only symptom management. What are the causes of these disorders? Poor diet choices and lack of exercise do contribute. However, we are also living in a chemical soup of toxins and are being poisoned by our food, water, personal care products, and other environmental exposures- such as the interior of water damaged buildings. In his first book, Alan Gruning, DO challenges us to take ownership of our health and adopt an Anti-Inflammatory Lifestyle. We must change the way we eat and the products we use. With years of practical experience treating a wide variety of very sick patients using a Functional Medicine approach, Dr. Gruning has developed a comprehensive plan to reduce your inflammation and improve your health.
