MAXIMIZING ENERGY EFFICIENT TECHNIQUES IN WIRELESS SENSOR NETWORKS

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Algorithms for Maximizing Network Lifetime | Recent advances in Wireless Communication and Embedded Microprocessors have led to the development of small, low cost sensor devices. A wireless Sensor Network consists of a large number of sensors distributed over a geographical area with their locations either previously fixed or randomly deployed. Energy consumption is the most important factor to determine the life of a sensor network. Sensor nodes are driven by a battery...

Reviews

Thorough guideline for publication fanatics. Better then never, though i am quite late in start reading this one. I am just effortlessly could possibly get a delight of reading a created book.

-- **Terry Bailey**

The very best ebook i ever study. It really is rally fascinating through reading through period of time. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Coleman Kreiger**
