

British Standard Specification for Cast Iron Pipes for Hydraulic Power (Classic Reprint) (Paperback)

By British Engineering Standar Association

Forgotten Books, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from British Standard Specification for Cast Iron Pipes for Hydraulic Power As regards the leading dimensions, the sub-committee have endeavoured, as far as possible, to fall in with the general practice in existing work as indicated by the replies received. In every case except the one referred to below, it has been practicable to adopt dimensions which will allow pipes made to the Standard Specification to be connected to existing pipes without alteration. The only exception is in the case of the diameter of the Spigot of the 6-inch pipe, Class A. Two dimensions, 6; inches and 7 inches, appeared from the replies to be in general use, but it was eventually decided to make the diameter of the Spigot of the 6-inch pipe 7 inches with a note to the Table calling the attention of Users to the fact that it might be reduced to 6 inches if occasion required.
