ARMS ALLOCATED RISK MANAGEMENT SYSTEM (IN BW): DESIGN IMPROVEMENT THROUGH RISK MANAGEMENT (PAPERBACK)

DOWNLOAD

Createspace Independent Publishing Platform, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. What if it were possible to develop a system that greatly improved the efficiency and excellence of virtually any future engineering, with all its advances and improvements not even imagined now? I am absolutely convinced Bill Simpkins has done such. The development of ARMS is an outstanding game-changing event for engineering innovation and development across the board. It destroys the random, frustrating, seat of the pants hodgepodge generally present in development with a long overdue philosophy and technique that controls the process. ARMS is structured teamwork, strongly supported by GUI software. I believe that years from now the enterprise-wide efficient teamwork fostered by ARMS will be a standard for all advanced engineering companies. This will happen because any company that does not adapt its philosophy, principles and tools will find it tough in the marketplace competing with those who do. I advise the reader of these words, no matter which department, to give this book a fair read. You do not have to be an engineer to read this ARMS book. Bill s approach solves the problems I ve witnessed in my lifetime in large organizations that are trying to conquer new worlds. There is not anything even in its class. ARMS is a real-world brilliant approach to bringing incredible teamwork, incredible GUI software, common sense and wonderful experience of successes to Engineering Innovation and Development. Enjoy! Capt. Guy D. Gruters ARMS Allocated Risk Management System that has been applied at several Fortune 500 companies, to Automotive Hybrid Electric Vehicles, Solid Oxide Fuel Cycles, Lithium Batteries, Advanced Development Brakes, Medical Implants, Advanced Climbing Wheel Chairs, Non-Plasma Reactors, Piezo Electric Injectors, Regenerative Brake Systems, Sensors, Power Electronic Bays and a large number...
